

Dear Sirs:I ask you to please reject petition 04-160. As an over the road truck driver I find satellite radio informative and with the traffic and weather channels very helpful. The information is repeated often unlike AM and FM radio, if I can find a station that has the information. Trying to locate a station that has good information while driving can be and is unsafe. With my XM, I have the station programed and I know what channel it is.
Thank you
